Part B: Synthesis Memo — Why Decisions Feel Closed

Length: two pages (about 900–1,200 words).

1 Headline

(one or two sentences): your answer to Alex's question.

2 Three findings

(for each)

- **Claim:** one plain sentence.
- **Evidence:** from both streams. Team fieldwork, story patterns (with margins, and what sits underneath), story summaries. Use the Culture Mosaic statements only where they sharpen the finding, words against words.
- **Where the streams agree or diverge.**
- **Confidence:** high, medium or low, and why.

3 What it adds up to

what the culture *does* around decisions, and what it costs. Not whether it's good or bad.

4 Limits

what this evidence can't tell the executive team.

5 Recommendatio

three or four, each specific to this evidence and starting with a verb.

6 If you'd quote anyone

say which story, and confirm the four quote checks. (You don't have to quote.)
